

Gray Davis, Governor

STATE CLEARINGHOUSE

NEWSLETTER

April 16 through 30, 2002

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents, federal notices and federal grant applications received by the Clearinghouse during the period **April 16 through 30, 2002.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse.html#clearinghouse

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Katie Shulte Joung and Karen Fowler (for projects in Northern California)
Scott Morgan and Brian Grattidge (for projects in Southern California)

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

CEQA & Planning Case Law

Summary of Recent CEQA & Planning Case Law

The following are summaries of recent court cases relating to the California Environmental Quality Act and/or land use planning law.

No Cases have been selected for the period of April 16-30, 2002.

Please be advised, the information contained in these summaries does not constitute legal advice, nor should the summaries be relied upon as a matter of law. Refer to the full text of the cases cited for the complete ruling and case facts.

Federal Notices

Intergovernmental Review Notices (April 16th – 30th)

The following are notices received by the State Clearinghouse from federal agencies in compliance with Executive Order 12372. If you would like more information about the subject matter, please contact the agency representative listed below.

Agency: Federal Energy Regulatory Commission
Contact: N/A
Telephone: N/A
E-mail: N/A
Address: 888 First Street, NE, Washington, D.C. 20426
Description: On April 11, 2002, the Commission issued an order approving as-built exhibit M of the Mill Creek Nos. 2 and 3 Hydroelectric Project, No. 1934. The project is located on Mill Creek and its tributary Mountain Home Creek, in San Bernardino County, California.
Comment By: N/A

Agency: Federal Energy Regulatory Commission
Contact: Jim Fargo
Telephone: (202) 219-2848
E-mail: James.fargo@ferc.fed.us
Address: 888 First Street, NE, Washington, D.C. 20426
Description: On April 11, 2002, the Commission issued a notice of applications ready for environmental analysis, soliciting comments, recommendations, terms and conditions, and prescriptions for the Vermillion Valley Project, No. 2086-035. The project is located on Mono Creek in Fresno County, near Shaver Lake, California.
Comment By: June 10, 2002

Agency: United States Department of the Interior
Contact: Ann Bowers
Telephone: (916) 414-6600
E-mail: N/A
Address: Field Supervisor, Attn: CSO 12 Month Finding, U.S. Fish and Wildlife Service, 2800 Cottage Way, Room W-2605, Sacramento, CA 95825
Description: In a letter to interested parties, dated April 18, 2002, the U.S. Department of the Interior is soliciting information pertaining to the status of the California spotted owl to complete their review for their petition to list the species as threatened or endangered

under the Endangered Species Act of 1973.

Comment By: August 31, 2002

Agency: United States Department of the Interior

Contact: Ann Nelson

Fax: (415) 663-8132

E-mail: Ann_nelson@nps.gov

Address: Exotic Deer Management Plan: Point Reyes Station, California 94956

Description: The National Park Service (NPS) is initiating public scoping for a conservation planning and impact analysis process for preparing a non-native deer management plan for Point Reyes National Seashore, including the North District of Golden Gate National Recreation Area administered by the Seashore.

Comment By: July 5, 2002

Agency: Federal Energy Regulatory Commission

Contact: John Mudre

Telephone: (202) 219-1208

E-mail: N/A

Address: 888 First Street, NE, Washington, D.C. 20426

Description: The Commission is reviewing an application for a new license for the continued operation of Pacific Gas and Electric Company's Pit 3, 4, and 5 Hydroelectric Project No. 233-081, located on the Pit River in Shasta County, California. In a letter to interested parties, the Commission invites comments and participation in the scoping process for this project.

Comment By: June 24, 2002

Agency: Federal Energy Regulatory Commission

Contact: Nan Allen

Telephone: (202) 219-2938

E-mail: N/A

Address: 888 First Street, NE, Washington, D.C. 20426

Description: In a letter to the U.S. Fish and Wildlife Service (USFWS), dated April 19, 2002, the Commission addressed the concerns of the USFWS regarding the Lower Tule River Hydroelectric Project No. 372 adversely affecting the valley elderberry longhorn beetle and the bald eagle. A teleconference has been scheduled between USFWS and the Commission to discuss this issue.

Comment By: N/A

Agency:	Federal Energy Regulatory Commission
Contact:	N/A
Telephone:	N/A
E-mail:	N/A
Address:	888 First Street, NE, Washington, D.C. 20426
Description:	On April 22, 2002, the Commission issued a three-year preliminary permit under Section 4 (f) of the Federal Power Act to study the proposed 8.5-megawatt Colorado River Aqueduct Desalination and Salton Sea Water Supply Project No. 12093. The project would have an annual generation of 100 gigawatthours that would be sold to a local utility and would be located in Riverside and Imperial Counties, California.

<u>Documents Received on Tuesday, April 16, 2002</u>			
2002042077	State Route 99/State Route 120 East Interchange and Road Widening Project Manteca, City of Manteca--San Joaquin Replacement of the existing SR-99 overcrossing of 120 (East), improvement of the SR-99 on- and off-ramps, widening of SR-120E from Commerce Drive on the west of approximately 120 meters east of Vasconcellos Road.	JD	05/22/2002
2002011106	9th and Flower Project: A South Park Mixed-Use Development Central Business District Redevelopment Project Los Angeles Community Development Agency Los Angeles, City of--Los Angeles The Project Applicant proposes to develop a mixed-use development project featuring the first major retail supermarket in downtown Los Angeles, as well as other ground floor retail uses and residential uses above the new retail development. Approximately 1,033,720 square feet of development is proposed on three sites (Sites I, II, and III), with approximately 116,700 square feet of new retail uses (including the approximately 50,000 square foot supermarket) and approximately 917,020 square feet of residential uses (approximately 1,021 units). Approximately 1,882 parking spaces will be provided.	NOP	05/15/2002
2002041099	Renaissance Hotel San Diego, City of San Diego--San Diego The proposed Renaissance Hotel would be a mixed-use development including a full-service, 334-room hotel, approximately 2,964 square feet of retail uses and 5,000 square feet of administration offices space for hotel operations. The proposed activity would be built on an approximately 40,122 square-foot-site and contain a total of 239,796 square feet above-grade. The project also includes a two-level below-grade 48,606 square foot parking garage with access from Sixth Avenue. The proposed floor area ratio for the development is 5.9 with a proposed height of 125 feet.	NOP	05/15/2002
2002042074	Trinity River Bridges Project Trinity County Planning Department --Trinity Modify or replace 4 bridges on the Trinity River to accommodate higher fishery flows and to protect public health and safety. Salt Flat Bridge, Bucktail Bridge, Poker Bar Bridge, and Treadwell Bridge.	NOP	05/15/2002
2002042075	Fish Passage Improvement Project at the Red Bluff Diversion Dam Tehama Colusa Canal Authority Red Bluff, Tehama--Tehama Construction of the Red Bluff Diversion Dam (RBDD) on the Sacramento River was completed in 1964 by the U.S. Bureau of Reclamation (USBR) as part of the Sacramento Canals unit of the Central Valley Project. The dam is used by the Tehama-Colusa Canal Authority (TCCA) as the primary point of diversion for 17 water districts in Tehama, Glenn, Colusa, and Yolo Counties. Since the dam's construction, concern has been expressed regarding the dam's effect on both upstream and downstream fish migration. The dam was built with 11 movable gates. Raising the gates eliminates the dam's effect and allows the river to flow unimpeded. Lowering the dam gates allows for gravity diversion into the canals and results in the creation of Lake Red Bluff. Over the years, the dam gates have	NOP	05/15/2002

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Tuesday, April 16, 2002</u>			
	been raised more frequently in an attempt to enhance fish passage. Therefore, the ability to divert irrigation water has been gradually decreased from year-round to the current 4-months (gates-in) operations from May 15th to September 14th. During the remainder of the year the dam gates are open, allowing a free flowing, unimpeded river.		
2001012051	Mumford Dam Fish Passage and Riparian Restoration Project Sonoma County Water Agency --Mendocino The project objectives are to restore anadromous fish passage during low flow conditions and provide access to approximately 45 miles of salmon spawning and rearing habitat located upstream of the dam. The proposed project would consist of biotechnical channel adjustments, bank recontouring and revegetation.	Neg	05/17/2002
2002041096	Surface Mining Reclamation Plan PMR 01-001 Tulare County Resource Management Agency Porterville--Tulare The applicant proposes to amend an existing special use permit to mine rock on 70 acres of a 142-acre site with reclamation to grazing land. Surface mining would occur over a thirty year period with ongoing reclamation of the site. A rock crusher and asphalt batch plant were approved under the existing use permit and are in operation on the site.	Neg	05/20/2002
2002041097	Lower Owens River Beaver Dam Removal Los Angeles County Department of Water and Power --Inyo Beaver dams will be removed from the river using a helicopter equipped with pilot-operated "Grabber" jaws attached by cable to the aircraft. Beaver dams are being removed in order to establish a continuous flow in the river and to prepare the channel from further water releases under the Lower Owens River Project.	Neg	05/15/2002
2002041098	Escondido Main Library Master Plan Escondido, City of Escondido--San Diego Demolition of the existing 40,750 square foot Escondido Main Library, and the associated construction of a new 86,000 square foot library building and 220 space parking garage on the library block which is defined by 2nd and 3rd Avenues and Broadway and Kalmia Street. The existing Mathes Center will remain in its current location.	Neg	05/17/2002
2002041100	Clinton Corner Garden Grove Unified School District Garden Grove--Orange The project will include the placement of ten portable classrooms, one portable restroom, one computer lab and one administration unit. The facility will serve as an educational resource center, offering adult education, child care, early childhood education and after school programs for elementary and high school students.	Neg	05/15/2002
2002041101	Construction of Vista Del Verde-Bastanchary Road Water and Sewer Pipeline Yorba Linda Water District Yorba Linda, Placentia--Orange Construction of water and sewer pipelines.	Neg	05/15/2002

2002042076	Visser Coastal Development Permit and Minor Subdivision Humboldt County Planning Department --Humboldt A Coastal Development Permit for (1) a Parcel Map Subdivision to create Parcels 1 and 2 of 1.9 and 3.7 acres, respectively, (2) construction of a single family residence with detached garages on each resultant parcel (three-bedroom, approximately 15 feet high and 2,100 square feet), and (3) excavation of approximately 1,400 yards of fill placed in wetlands without permits, 1,000 yards of fill will be spread on-site and 400 yards transported to APN 509-041-26, -27 and -28. The resultant parcels will be served by on site water and sewer services will be provided by McKinleyville Community Services District. Also, an exception to the lot frontage requirements for both parcels (the lot frontage for both properties will be 20 feet), and a Special Permit to allow for an exception to the lot width to depth ratio (the lot depth will be more than three times the lot width).	Neg	05/15/2002
1995112039	Elk Grove Auto Mall GPA Sacramento County The project includes a General Plan Amendment on 44.0 acres from (LDR) Low Density Residential 1-12 to (CP) Commercial and Office, a request to Rezone 44.0 acres from (AG-80) Agricultural 80 acres to (AC) Auto Commercial, and a Tentative Subdivision Map for 11 parcels ranging in size from 2.10 acres to 8.4 acres in size totaling 44.0 acres, with a 30.3 acre remainder.	NOD	
1999041209	Amador 49 Bypass 10-AMA-49-KP 11.3/R17.7 Caltrans #3 Sutter Creek, Amador City--Amador Caltrans proposes to construct the State Route 49 Amador Bypass Project, a two-lane expressway with intersections, to bypass the communities of Sutter Creek and Amador City in Amador County. The purpose of the project is to reduce the congestion experienced in these historic communities on existing Route 49 and improve system continuity while preserving tourism. Two build alternatives and a no build alternative were studied. Alternative 4A has been selected as the preferred alternative. Anticipated impacts include reduction of habitat, removal of oak woodlands, and impacts to a historical mining feature. Mitigation measures are proposed that reduce or avoid these impacts.	NOD	
1999091025	Grassland Bypass Project U.S. Department of the Interior --Merced, Fresno The California Department of Fish and Game (Department) is executing a Memorandum of Understanding (MOU) with the San Luis and Delta-Mendota Water Authority (Authority) for the Authority's use of Mud Slough (North) through the China Island Wildlife Area. The purpose of the Project is to allow the Authority to continue its discharge of saline agricultural drain water from the Grassland Drainage Area to the San Joaquin River via the Mud Slough. The northern portion of Mud Slough flows through the China Island Wildlife Area, which is owned by the Department. The Department entered into an MOU for use of Mud Slough (North) and to ensure that appropriate monitoring of Mud Slough and the San Joaquin River will occur, that water quality objectives will be met, and that Mud Slough will be restored to its pre-1995 condition after the Project is terminated. The project period is from the execution of the MOU through December 31, 2009, or until Mud Slough is restored, whichever is later.	NOD

1991123083	Highway 25 Pass San Benito County HOLLISTER--SAN BENITO The proposed project is to construct a bypass of Highway 25 on the east side of Hollister. The Bypass is designed as a 70 km/h (posted 35 mph) four-lane-north-south urban arterial with six lanes south of East Park Street. The proposed improvements would relieve congestion in downtown Hollister and improve traffic circulation in and around the city by providing a new through traffic facility to serve increasing travel demand.	EA	05/31/2002
2001091039	New Elementary School Lynwood Unified School District Pasadena--Los Angeles Lynwood Unified School District proposes to construct a new elementary school for approximately 710 students on an approximately 4.2 acre site in the City of Lynwood. The existing Lynwood schools are at or exceeding capacity, and anticipated population increases will increase enrollment demand further. The proposed school would relieve overcrowding at the existing elementary schools by permitting transfer of currently-enrolled students to the new location and accommodating future enrollment demand from anticipated new residents. No immediate overall increase in District enrollment is projected as a result of the proposed project. Construction would include approximately 51,730 gross square feet of classrooms, multipurpose room/stage/lunch area, administrative and support space, plus 84,467 gross square feet of hardcourt and playing fields and 39,555 square feet of landscaping/open space. Approximately 65 parking spaces would be provided in a surface lot. The District proposes to acquire vacant commercial buildings, vacant lots, and 19 residential buildings/single family homes located on the site.	EIR	06/01/2002
2002032008	Newell/Embarcadero Civic Facilities Expansion Program Palo Alto, City of Palo Alto--Santa Clara The City of Palo Alto, proposes to expand the existing Main Library, a one-story building, from approximately 26,000 square feet to approximately 66,000 square feet. The City also proposes to expand the existing Palo Alto Art Center, a one-story building located on the same site and adjacent to the Main Library, from approximately 29,000 square feet to approximately 56,000 square feet in two phases.	EIR	05/16/2002
1998052052	Pacific Herring Commercial Fishing Regulations Fish & Game HQ --San Francisco, Alameda, ... The proposed project is a body of recommended regulations governing the commercial harvest of herring for roe products, the harvest of herring eggs-on-kelp, and the harvest of herring for fresh food, bait, and pet food. The proposed project takes the form of recommendations for continuation, amendment, or change to an existing body of regulations in effect since 2000 (Sections 163, 163.5, and 164, Title 14, California Code of Regulations). 2002048223	Issuance of Streambed Alteration to Agreement #02-0023, Budden Creek and associated rivulets, tributary to Dry Creek, Tehama County Fish & Game #1 Red Bluff--Tehama The project will install four (4) culverts on seasonal tributaries of Budden Creek near Red Bluff, Tehama County, to allow completion of a wet weather ranch access road, and placement of native rock slope protection to prevent erosion adjacent to the road.	NOE	
2002048224	Issuance of Streambed Alteration to Agreement #01-0429, Dolf Creek, Tributary to the North Fork Mad River, Humboldt County Fish & Game #1 --Humboldt The project will remove an existing culvert on Simpson Forest Road X-7-3 at Dolf Creek, Humboldt County. The existing road crossing will be abandoned, and the road will be dead-ended at this location.	NOE	
2002048225	Lewelling Avenue Outfall Fish & Game #3 St. Helena--Napa The operator proposes to install a 36 inch pipe from State Highway 29, down the northern dirt shoulder of Chaix Lane, St. Helena, Napa County, and ultimately discharging at an existing outfall location on the southern edge of Chaix Lane where it terminates on the banks of the Napa River. The current discharge point is scoured and eroding. The operator proposes to install the 36 inch pipe diagonal across the road and install filter fabric, and approximately 210 square feet of 1/2 ton rock slope protection at the outfall location. Issuance of a Streambed Alteration Agreement Number R3-2002-0173 pursuant to Fish and Game Code Section 1601.	NOE	
2002048226	Paso Robles Creek Vegetation Trimming/Removal Fish & Game #3 --San Luis Obispo Trimming of overhanging vegetation (including willows) along the exterior of the creek to within a three (3) foot buffer zone between the cultivated field and the creek. The vegetation will be trimmed from ground level up to a height of up to ten (10) feet. A few small willows, no more than four (4) feet high will be removed from shallow areas of the stream channel. Only hand tools will be used to trim branches, and removal of willows in the creek will be done by hand. Issuance of a Streambed Alteration Agreement Number R3-2001-0628 pursuant to Fish and Game code 1603.	NOE	
2002048227	Fence on an Unnamed Tributary to Arroyo Seco Fish & Game #3 Livermore--Alameda The operator proposes to finish the construction of a wire mesh fence along an unnamed tributary to Arroyo Seco on his property at 5500 Victoria Lane in Livermore, Alameda County. The new 4 foot high fence, being built along the southern property boundary, will be constructed out of 2x4-inch wire mesh and will replace approximately 300 feet of horse fence. Steel posts of 2-inch diameter and concrete footings of 9-inch diameter will be placed 22 inches below ground level and 10 feet on center. Approximately 6 to 8 fence posts have not yet been set in concrete. Issuance of a Streambed Alteration agreement Number R3-2000-1178 pursuant to Fish and Game code section 1603.	NOE

2002041110	antennas, a GPS antenna and seven support equipment cabinets. EADM2-01 Kern County Planning Department Bakersfield--Kern a) Amend the Metropolitan Bakersfield 2010 General Plan from Map Code(s) SR (Suburban Residential) to GC (General Commercial) or a more restrictive map code designation for the northerly 1.0 acres of the site; b) A change in zone classification from A-1 PD (Limited Agriculture, Precise Development Combining) to M-1 PD (Light Industrial, Precise Development Combining) on the northerly 1.02 acres and from A-1 PD to (1/2) RS on the southerly 3.48 acres of the site. The project site is a 4.50 acre parcel of land located on the northwest corner of Rosewood Avenue and Morning Drive. The property is developed with two single family dwellings and a truck operation that has been established without zoning approval or building permits. The trucking operation occupies approximately 1.02 acres of the site, while the two dwellings and an orchard occupy the remaining 3.48 acres. The business currently hauls produce from the San Joaquin Valley to grocery stores and sea cargo terminals in Los Angeles, although approval of this request would allow the applicants to haul non-agricultural items as well. The applicants own the trucks, six refrigerated trailer units, and one non-refrigerated trailer. Two other owner/operations each have a truck and trailer on the site as well. A commercial coach that is being used as an office was also installed without the benefits building permits or land use approvals. Three full time employees currently work on the site, although as many as eight employees per shift are expected. Sewage disposal and water supply is from the East Niles Community Services District and site access is from Morning Drive (State Route 184), a major arterial alignment on the circulation element of the Metropolitan Bakersfield 2010 General Plan. Approval of these requests will allow the retention and possible future expansion of the existing trucking operation and will bring the zoning of the remaining acreage into consistency with the map code designation of the Metropolitan Bakersfield 2010 General Plan. <u>Documents Received on Thursday, April 18, 2002</u>			
	existing irrigation system, landscaping, paving, and benches located at the "West Plaza" park. The BISC will include a reception/entry area, training rooms, conference rooms, locker/shower/restrooms, laundry room, multipurpose room and kitchen, director's office, various storage and equipment rooms, and boat storage bays. In addition, the BISC will include the construction of a fenced outdoor boat operations area, a paved parking lot, landscaping, and the construction of a public walkway along the full frontage of the property on Humboldt Bay. The proposed waterfront walkway will connect to the walkway at the Adorni Center. The construction and improvement of Waterfront Drive between "G" and "K" Streets will require the construction or improvement of a street section that generally includes two travel lanes, a bike lane, and pedestrian sidewalk; it will require, within the Waterfront Drive right-of-way, the extension of utilities, including storm drain, water and sewer; and the extension and undergrounding, as necessary, of telephone, cable TV, power, and natural gas lines. To facilitate the project, the City will be required to process and approve a number of applications, including: Coastal Development Permit; Design Review; Lot Line Adjustment; Street Vacation; Surplus of City Property; and establishment of an Underground Utility District.		
2002042094	Kings Beach Student Activity Center Tahoe Truckee Unified School District --Placer The proposed project involves the construction of a Student Activity Center as an addition to the existing Kings Beach Elementary School. The building will provide space for a variety of school and community functions including art, music, and recreation activities, Boys and Girls Club activities, public meetings and gatherings, and other related activities. The building is a single-level building that is approximately 21,000 square feet in size and includes a gymnasium and stage, classrooms and offices, kitchen, and accessory.	Neg	05/20/2002
2002042096	Centerville Community Park (PLN 2002-00223) Fremont, City of Fremont--Alameda The proposed City-initiated park project will expand the existing ten acre Centerville Community Park onto an adjacent ten acre undeveloped parcel. In addition to the existing facilities, the proposed improvements will include turf and play areas, two parking lots, bocce-ball courts, horseshoe pits, picnic areas, a small outdoor seating area, a restroom structure, and associated pathways and lighting. The proposed addition would approximately double the size of the existing park.	Neg	05/17/2002
2002042098	Victor Jones Vineyard Land Conversion Forestry and Fire Protection, Department of Santa Rosa--Sonoma The issuance of a Timberland Conversion Permit exempting 11.0 acres of timberland from Forest Practice Act tree planting requirements resulting in the development of a vineyard. The conversion area is site III timberland.	Neg	05/20/2002

	pursuant to the universal waste management requirements in lieu of the traditional hazardous waste requirements. These universal waste standards will provide streamlined requirements for the collection, transportation, and intermediate recycling of CRTs, but will require full hazardous waste storage and treatment standards at the destination facility.		
2002048245	<p>Pollution Control Industries of California, LLC (PCI), Class II Permit Modification Toxic Substances Control, Department of --Sacramento</p> <p>The Class II Permit Modification allows the facility to receive and bulk solid wastes. PCI is authorized to bulk only liquid wastes received at the facility. The Class II Permit Modification authorizes PCI to receive and bulk incoming solid wastes in addition to also receiving and bulking liquid wastes it currently is permitted to accept and bulk. PCI requested a Temporary Authorization for the bulking of solid wastes from DTSC while applying for the Class II permit Modification. DTSC approved a Temporary Authorization dated September 20, 2001. The Class II Permit Modification for the bulking of solid wastes does not authorize PCI to accept or bulk any new hazardous waste class codes at the facility. The solid wastes to be accepted by the facility are listed under the same hazardous waste code for which PCI is currently authorized to accept. Also, the Class II Permit Modification does not authorize an increase in the capacity of hazardous wastes accepted at the facility. All solid wastes received at the facility conform to all other existing permit conditions and requirements. Additionally, as a condition of this Class II Permit Modification approval, PCI is limited to two bulk-shipping containers at any one time at the facility and these bulk-shipping containers will remain at a designated location within the facility until transported off site.</p>	NOE	
2002048246	<p>Artisan Distillation Unit Class II Permit Modification, Safety-Kleen Recycle Center, Reedley Toxic Substances Control, Department of Reedley--Fresno</p> <p>Safety-Kleen Systems, Incorporated, Reedley Recycle Center, Class II Permit Modification for the replacement and upgrading of the emission control equipment on the Artisan distillation unit. This Class II Permit Modification allows the facility to install the new equipment, which will improve the air quality of the neighboring community. The Class II Permit Modification authorizes the facility to replace the steam injector with a vacuum pump and install two new chilled condensers followed by a carbon bed to control air emissions. The recovered chilled solvent flows to one of the used solvent tanks for reprocessing.</p>	NOE	
2002048247	<p>HHWVAR020202-Variance to the City of Los Angeles to Operate Three and Four Days Household Hazardous Waste (HHW) Collection Events Toxic Substances Control, Department of Los Angeles, City of--Los Angeles</p> <p>Variance to the City of Los Angeles from hazardous waste facility permit requirements. The variance is limited to the three and four-days household hazardous waste (HHW) collection events listed above. The collections provide appropriate means of disposing of household and conditionally exempt small quantity generator (CESQG) hazardous waste. The variance is based on the evidence that: 1. The three and four-days collections are to be operated similar to permit-by-rule temporary HHW collection facilities; 2. Only personnel trained in hazardous waste management shall handle or package hazardous waste; and 3. All collected wastes will be manifested and transported by registered transporter to permitted hazardous waste recycling, treatment, storage, or disposal facilities</p>	NOE

2002048295	California Water Service Company - Visalia System, Nish Connection Health Services, Department of Visalia--Tulare The purpose of the project was to connect a recently purchased existing system to the Visalia system, and to upgrade two wells of the purchased system with new treatment units.	NOE	
2002048296	California water Service Company, Water System Number 151003 Health Services, Department of --Kern The purpose of the project is to negate a Boil Water Notice, and to bring water to the entire system. These goals will be attained by the construction of an 18-inch intake pipe in the Kern River bottom (completed), and the construction of a 300-gpm Microza hollow fiber micro-filtration plant.	NOE	
2002048297	Sale of 9.335 Acres of Surplus Property at La Sierra Avenue and Blackburn Road in Riverside County Metropolitan Water District of Southern California --Riverside Metropolitan has determined that the ownership of Metropolitan parcels 1400-2A-1 and 3 (portion) is surplus to Metropolitan's needs and can be disposed of without adversely affecting Metropolitan's operations or foreseeable requirements. Therefore, Metropolitan proposes the sale and transfer of ownership of the surplus 9.335-acre property to prescribed public agencies at a sale price of its fair market value.	NOE	
2002048334	Boat Storage and Repair Building - Castaic Lake West Boating and Waterways, Department of --Los Angeles The Department of Boating and Waterways proposes to construct a 40-ft. by 75-ft. pre-engineered metal boat storage building with a small office, a shower/restroom inside, and a 30-ft. by 60-ft. covered storage area outside. Both structures will be within a newly fenced and paved 85-ft. by 220-ft. open storage area being used by the Los Angeles County Lifeguard Station. The existing concrete lined drainage ditch along side the paved area will be replaced. The proposed storage building will be used for minor repair work, to store buoys, patrol boats and miscellaneous lifeguard equipment. Excavation is about 1500 c.y. and demolition consists of removing the kiosk, some paving, curbs, trees (eucalyptus) and shrubs. The project will tie into existing sewer, water, electric, telephone, and storm drains on site.	NOE

2002041127	Main Library Expansion Project Orange, City of Orange--Orange The proposed project consists of the expansion and remodel of the existing Orange Main Library. A portion of the 100 block of North Center Street would be abandoned to accommodate the proposed project. A two-story structure totaling approximately 28,000 square feet would be constructed on the abandoned portion of Center Street as an addition to the existing 17,000 square foot library. The Edwards House, an adjacent property located at 431 East Chapman Avenue, would be sold as part of the proposed project. The Edwards House is a former residence now owned by the City of Orange and is listed as contributing structure to the City's Historic District. The existing Orange Main Library parking lot and the adjacent City Redevelopment Agency-owned parking lot located on the northwest corner of Chapman Avenue and North Center Street would be modified and reconfigured to provide a total of 162 on-site parking spaces for Library patrons.	Neg	05/21/2002
2002041128	Manhattan Beach USD Multi-Purpose Building Mammoth Unified School District Manhattan--Los Angeles The project consists of demolition of all onsite uses, development of an 18,055 square foot Multi-purpose Building, widening of the entrance driveway to South Peck Avenue, development of additional surface parking east and west of the Multi-purpose Building, re-design of the existing surface parking, placing of all utilities underground, potential abandonment or capping of existing utilities, increasing the capacity of the detention basin and development of an emergency-access driveway to South Rowell Avenue. Construction is anticipated to be completed in August 2003. The project site (325 South Peck Avenue) currently has facilities used by the District's South Bay Adult School, Manhattan Beach Family Center and Manhattan Child Development Center (i.e. adult education and day care) programs. The existing seven portable buildings onsite were installed in 1965-66. The project site is designated as Public Facilities in the General Plan of the City of Manhattan Beach and the zoning designation is Public Facilities.	Neg	05/21/2002
2002041131	Safe Routes to School--Oak Hill Drive Escondido, City of Escondido--San Diego The project involves widening the existing 33 foot wide street to full residential street standards (36 feet wide within a 56 foot right-of-way), including construction of sidewalks on the south side, ac walk and berm on the north side, retaining walls (ranging in height from 2'to 8'), replacement driveways and landscaping. The project includes right-of-way acquisition from an estimated 11 along the south side of the street (13,000 S.F. total) and easement permissions from approximately 5 properties (9,100 S.F. total) along the south side of the street frontage. The project will not change the alignment or increase the number of through traffic lanes.	Neg	05/22/2002

2002042117	Windsor Community School Sonoma County Windsor--Sonoma SCOE proposes to expand its existing community school located on Old Redwood Highway in the northern portion of the Town of Windsor. The Windsor Community School serves high school level students who have been directed to the school for a variety of personal reasons. SCOE intends to purchase an existing Park and Ride facility from Sonoma County Transit. The property (APN 086-220-027) is 0.66 acres in size. The majority of the site was paved and landscaped by Sonoma County Transit when the Park and Ride facility was developed. The southern portion of the existing paved area will be utilized as an outdoor recreation area and the northern portion will be retained as parking. A new manufactured classroom is planned to be located on the southern end of the site in the future. When the expansion project is complete, a total of 40 students between 9th and 12th grade will attend the community school during regular school hours.	Neg	05/22/2002
1986070109	San Ramon Valley Trunk Sewer Improvement Project Central Contra Costa Sanitation District SAN RAMON DANVILLE ALAMO WALNU--CONTRA COSTA The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement R3-2002-0043 pursuant to Section 1601 of the Fish and Game Code to the project applicant, William Brennan/ Central Contra Costa Sanitary District. The applicant proposes to install a sewer force main from 650 feet north of the Norris Canyon Road, then travels south along the Old Railroad Grade 12, 450 feet to 30,000 feet south of Montevideo Drive before crossing under South San Ramon creek to the east to tie into the San Ramon Sewage Pumping Station located at 9925 Mangos Drive in San Ramon, Contra Costa County.	NOD	
1993031016	Mesquite Trails San Diego County A five year time extension for an approved subdivision map which permits 480 recreational vehicle lots on 309.5 acres.	NOD	
1996061075	DEL AMO BOULEVARD OVERCROSSING AT I-405 Carson, City of CARSON--LA CDFG is executing a Lake and Streambed Alteration Agreement pursuant to Section 1601 (SAA #5-2002-0117) of the Fish and Game Code to the project applicant, Mr. Ken Boyce, City of Carson Public Works Department. The applicant proposes to alter the streambed and bank of Macco Channel by installing a double box culvert within the channel as part of the extension of Del Amo Boulevard across the San Diego Freeway (I-405) and the Dominguez Channel. The project would establish Del Amo Boulevard as a continuous regional facility stretching 52 kilometers from Vermont Avenue, just west of the I-110, to just before the border within the San Bernardino County. The Macco Channel is an unvegetated, concrete-lined channel, with 15 to 20 foot high vertical walls. The property is surrounded by recreational, industrial and commercial properties. The project shall not impact more than 0.01 acre of stream channel, of which is entirely concrete lined.	NOD

1998061084	Agricultural Issues General Plan Amendment and Implementing Rezone GPA 96-03 San Diego County Alpine, Bonsall, Dehesa, Harbison Canyon, Jamul, Dulzura, ...--San Diego General Plan Amendment to the San Diego County General Plan	NOD	
1998102013	Monte Rio Wastewater Pollution Control Project Sonoma County Monte Rio--Sonoma The project involves the adoption of Waste Discharge Requirements that would authorize discharges of treated effluent to subsurface leaching trenches and a subsurface drip system. The Waste Discharge Requirements were adopted for the collection, treatment, and disposal of wastewater generated by the community of Monte Rio in Sonoma County, California. The wastewater collection system will consist of pressure sewers with individual grinder pumps throughout most of the floodplain area, clustered systems where feasible, and gravity collection for the adjoining hillside areas. The wastewater will be piped to the Monte Rio Wastewater Treatment Facilities for treatment. The wastewater will be treated using a Sequencing Batch Reactor (SBR) and a filtration system to provide an advanced treatment level for BOD and TSS and to allow for effective disinfection. The SBR will also provide effective nitrogen reduction in the wastewater. Following filtration, disinfection of the wastewater will be accomplished using ultraviolet light.	NOD	
2000011021	Marr Ranch II Draft EIR (GPA46/Z-S-532/PD-S-901/TT 5207) Simi Valley, City of Simi Valley--Ventura CDFG is executing a Lake and Streambed Alteration Agreement pursuant to Section 1603 of the Fish and Game Code to the project applicant, Jon Friedman of RBF. The applicant proposes to alter 6 streambeds to construct 226 residential units, 2 debris basins, 2 creek crossings. The project is located in Simi Valley in Ventura County.	NOD	
2000051013	Silverwood Residence San Diego County, Department of Planning and Land Use San Diego--San Diego The proposed project consists of a grading plan for a large single-family estate residential. The total area of the property is 3.11 acres and the project proposes to grade the majority of the site. The project proposes 393 cubic yards of cut, at a maximum cut slope ratio of 1.5:1 for the minor slopes and 2:1 for major slopes, within a maximum vertical height of 9 feet. Also, the project proposes 36,150 cubic yards of fill operation and will require 35,757 cubic yards of imported soil from a legal site. Currently, the soil is stockpiled on-site. Moreover, the grading proposes the incorporated a loffelstein retaining wall system s a part of the landscaping plan for the proposed project.	NOD	
2001042013	The 2001 Fishery Restoration Grant Program Fish & Game #1 --Siskiyou The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1601 of the Fish and Game Code to the project applicant, [Mr. John Condon representing the Trinity County Resource Conservation District]. The applicant proposes to do various fish habitat restoration projects on Barker Creek, a tributary to Hayfork Creek, Trinity County. The project will install an infiltration gallery, cistern and pump for irrigation	NOD

2002032105	Magpie Creek Flood Control Project Sacramento Area Flood Control Agency --Sacramento The Magpie Creek Diversion Channel (MCDC) was constructed in the 1950s by the U.S. Army Corps of Engineers (USACE). Hydrologic evaluation by USACE and SAFCA have determined that homes and businesses in the vicinity of Magpie Creek have less than 100-year flood protection. During a 14-year of greater flood event, MCDC levees is overtopped and levees are outflanked during a 2-year or greater event. When more severe events occur, USACE is projecting extensive flooding along historic Magpie Creek, affecting residential, commercial, industrial, and public structures. USACE, SAFCA and The Reclamation Board are proposing to construct a project to protect existing structures from flooding up to the 170-year event. The proposed project includes: 1) construction of a floodwall (2,100 feet) along the top of the existing left bank levee of the MCDC; 2) construction of a levee (1,000 feet) along the west side of Raley Boulevard south from the Magpie Creek bridge; 3) Acquisition and protection of a 72-acre flood plain on the east and west sides of Raley Boulevard; 4) Construction of a culvert under the Sacramento Northern Railway embankment. 2002041150	Curly Top Virus Control Program Food and Agriculture, Department of -- The proposed project represents an overall strategy by the Curly Top Virus Control Program (CTVCP) for the control of the sugar beet leafhopper (BLH) statewide where the infection of susceptible crops and backyard gardens is likely. Control is performed within rangeland habitat on both public and private lands; and along ditch banks, roadsides and fallow fields in cultivation adjacent to rangeland. Control generally consists of the application of the insecticide malathion either aerially or from ground-rigs, although biological control methods (parasites) are used in some locations. The Curly top virus (CTV) is a viral disease of sugar beets, tomatoes, melons, peppers, beans, cucumbers, squash, pumpkins, spinach, vine seed and other commercially important crops, including ornamentals. CTV not only infects commercial crops, but at times devastates backyard vegetable and flower gardens. The only known vector of CTV is circulifer tenellus (Baker), commonly known as the sugar beet leafhopper (BLH).	Neg	05/24/2002

1999071059	Robert B. Diemer Filtration Plant Improvements Project Metropolitan Water District of Southern California Yorba Linda--Orange CDFG is intending to execute a Lake and Streambed Alteration Agreement (SAA #R5-2002-0099) pursuant to Section 1601 of the Fish and Game Code to the project applicant, the Metropolitan Water District of Southern California. The applicant proposes to alter the streambed to construct two railcar bridge crossings over Carbon Canyon Creek and Telegraph Creek within Chino Hills State Park, Orange County. The railcar bridge crossing over Carbon Canyon Creek will replace an existing Arizona-dip type crossing, while the railcar bridge crossing over Telegraph Creek will replace a culvert-type crossing that was damaged and rendered impassable several years ago. Both the Arizona crossing at Carbon Canyon Creek and the culvert crossing at Telegraph Creek will be removed prior to project completion. Both railroad bridge crossings will span the width of the streambed. Thus, the bridges themselves will have no permanent streambed impacts. However, a total of 0.50 acres of mulefat scrub/willow woodland riparian habitat will be temporarily impacted by vegetation removal immediately adjacent to the bridge construction sites (0.35 acres at the Carbon Canyon Creek crossing and 0.15 acres at the Telegraph Creek crossing) for construction activities. The Operator will mitigate for the temporal loss of habitat at these sites by mitigating at a 3:1 ratio. For the 0.5 acre of riparian areas disturbed due to bridge construction, the Operator shall restore the stripped or exposed site by revegetating the area with vegetation native to the area. In addition, the Operator shall mitigate with the on-site enhancement of an additional 1.0 acre of willow woodland riparian habitat within Chino Hills State Park. Any mature native trees removed from the stream's banks shall be replaced in-kind, at various ratios depending on size, within Chino Hills State Park.	NOD

	University Avenue, on the south by Allison Avenue, on the east by the trolley right-of-way and on the west by Date Avenue and the rest of the Civic Center property. A 40,000+/- square foot library is proposed with approximately 200 surface parking spaces. An existing warehouse, post office and office buildings on the property will be demolished as part of the project. The project also involves closing Nebo Drive between University Avenue and Allison Avenue and closing a portion of Date Avenue north of Allison. The existing library on an adjacent parcel on the Civic Center will also be demolished following construction of the new library. City of La Mesa File Number DAB/DRB 02-07.		
2002022059	Don Wallace Conditional Use Permit (CUP-00-28) Humboldt County --Humboldt A Conditional Use Permit is required for the incidental retail sales of agricultural products and materials accessory to, and associated with, the principally permitted growing of ornamental shrubs and trees in an Agriculture Exclusive zone. The retail sales will be limited to bare-root trees, ornamental shrubs, soil amendment products such as fertilizer, mulches, compost, etc. The estimated customer traffic during open hours (Wed.-Sat.) will be 10-20 vehicles per day with peak customer visits occurring in the spring (April and May). Other times of the year will have less traffic due to the "dormant" nature of the business. The project will occur on a site to be developed with a wholesale nursery operation which is a principally permitted use in the Zone. Wholesale nursery improvements will consist of a gravel parking lot to accommodate +/- 15 cars, +/- 4 "hoop" houses, a 500 square foot path for the display of nursery plants and limited incidental agricultural goods for sale, a 1,750 square foot barn which will house the nursery office, a restroom and storage area. The 40 acre parcel is zoned AE and TPZ; all nursery uses will take place in the AE portion of the parcel. The commercial uses will be served by community water, whereas the water needs for the growing aspects of the nursery business will be supplied by an on-site spring system. The site will be served by on-site sewage disposal systems.	NOD	
2002032005	Silver Dove Elementary School Buckeye Union School District --El Dorado The proposed project calls for the acquisition and development of a 10 acre site within the BLHSP area for a K-5 elementary school. The facility will provide classrooms, instructional preparation, administration, food service and recreational facilities to serve approximately 650 students and 70 staff. The facility will also provide on-site parking facilities, including a parent drop-off area. The proposed project is necessary to accommodate K-5 grade level educational demand created by the development of subdivisions within the Bass Lake Hills Specific Plan and surrounding area. This increase in elementary school students would exceed the current available capacities of the Buckeye Union School District. The Final Environmental Impact Report for the Bass Lake Hills Specific Plan preliminarily identified school sites, but the specific location for the school site must be determined and accepted by the school district. The acquisition of the subject property would help mitigate the impact of new students to the Buckeye Union School District to a less than significant level.	NOD

1996121072	Saddleback Meadows Orange County --Orange Phased development 299 single-family residential lots on approximately 222 acres. Approximately 71 percent of the project site is proposed to remain in open space.	EIR	06/10/2002
2001102057	Canyon View High School Program Chico Unified School District Chico--Butte The purpose of the project is to meet a critical need for a new high school campus to accommodate new students and overflow students. The project involves constructing and operating a high school serving 1,600-2,000 students in grades 9-12 and employing 100-120 staff members. The high school is proposed for development on one of four potential sites in the southeastern portion of Chico. The proposed project would include classrooms, administrative buildings, ball fields, basketball courts, a football stadium, and on-site parking, to be constructed on a 50-acre or larger high school site. Construction is expected to begin in 2004 and be completed in 2 years.	EIR	06/13/2002
2001112016	Central Disposal Site Administration Building Relocation and Landfill Gas Pipeline Project Sonoma County Permit and Resources Management Department Santa Rosa--Sonoma The existing administration building will be demolished, and the East Canyon landfill will be expanded onto the building site. This additional space will add approximately eight to twelve months of capacity to the landfill. This area would tie into the existing 42 acre East Canyon landfill expansion project currently being constructed. Expansion of the landfill into this area of approximately 1.9 acres would result in an air space of approximately 900,000 cubic yards. This expansion will likely require blasting as was required for the East Canyon expansion, and will use the same liner technology as is currently being used in this expansion.	NOP	05/28/2002
2002042134	Oakley 2020 General Plan Oakley, City of Oakley--Contra Costa The current Contra Costa County General Plan was adopted by the City of Oakley in 1999 to serve as the Oakley General Plan until completion and adoption of the Oakley 2020 General Plan. The Contra Costa County General Plan assumed a planning horizon of 1995 -2010 and address growth, development, housing, and recreational use within the Oakley community, as well as the remainder of the unincorporated area of Contra Costa County. The primary function of the General Plan is to prescribe growth within the region in an orderly fashion and to allocate specific areas for development that will cause the least impact to the environment. 2002042136	McKinleyville to Trinidad Fiber Optic Line Coastal Development Permit CDP-01-67 Humboldt County Planning Department Trinidad--Humboldt A Coastal Development Permit to place fiber optic phone cable along existing road right-of-ways from Railroad Avenue via Central Avenue in McKinleyville to the City of Trinidad. Most cable sections will be placed underground and involve directional drilling primarily along the east side (upslope) of county roads. Some highly curved road sections may require open trench construction with backfill and compaction to county standards. Stream crossings will be along the side of existing bridges/culverts. Little River will be crossed via aerial cable on existing poles. The project will occur in two phases. Phase 1 will commence by spring or early summer of 2002, and will take approximately 6 months. Phase 1 will focus on the Westhaven area as the County roadway in this portion is scheduled to be repaved at this time. Phase 2 will consist of the remainder of the project and will follow phase 1.	Neg	05/30/2002
2002042137	Tahoe Sierra Recreation Raft Rentals (EIAQ-3654) Placer County Planning Department --Placer Proposal to extend a rafting permit for a raft rental operation on the Truckee River, with rafters starting at Tahoe City and completing their tour at the River Ranch.	Neg	05/28/2002
2002042138	Azusa City Library Project Azusa, City of Azusa--Los Angeles An approximately 60,000 square foot, two-story library facility with community meeting spaces, a cafe, computer labs, children's library, and outdoor reading garden.	Neg	05/28/2002

	circulation area; 3,200 sq ft of staff office space; 2,700 sq ft of community meeting room space; 1,400 sq ft for technology training area; 900 sq ft of lobby and building service and facility areas. The structure would be one story, measuring approximately 33 feet tall. An outdoor reading room with shade trees and benches is planned between the west facing facade and the adjacent retail building.		
2002042145	Humboldt Botanical Gardens Coastal Development Permit CDP 01-66 Humboldt County Planning Department Eureka--Humboldt A Coastal Development Permit and Special Permit are required for the phased development of a botanical garden facility adjacent to the College of the Redwoods. The project will include monument and entry signing, parking areas, various garden areas, fences and gates, and landscaping. A Special Permit is required to establish the required parking for a use that is not enumerated in the zoning ordinance. The project is to be developed by the applicant, Humboldt Botanical Gardens Foundation, on a 44.5 acre site leased from the College of the Redwoods and directly north of the existing college facilities. Phased development of the site is expected to occur over a very long period of time and is dependent upon funding for each phase. The initial plans for the Gardens are discussed below and shown in the Revised Master Plan. The individual gardens within the Humboldt Botanical Garden will be composed of a plant palette known to thrive in the Humboldt Region, thus creating a unique botanical garden that cannot occur anywhere else. The family based plant collection of natives, exotics, and ornamentals will display interesting color, texture, and form. The Garden will serve as a living museum with interpretive, educational, and scientific value.	Neg	05/30/2002

2002022101	Hughson Redevelopment Project Hughson, City of Hughson--Stanislaus The Hughson Redevelopment Agency is proposing to adopt the Redevelopment Plan for the Hughson Redevelopment Project to enable the effective redevelopment of an approximately 313 acre area located within the Hughson City limits.	EIR	06/13/2002
2002034003	Picayune Rancheria Fee-To-Trust U.S. Department of the Interior --Madera Transfer of 111.7 acres from Fee Title to Federal Trust for the Picayune Rancheria of the Chukchansi Indians of California. Subsequent development will include construction of access road, modification of existing stock pond, extension of 1 or 2 existing culverts, and construction of parking lot, landscaping, and irrigation.	FON	05/30/2002
2002041169	North Fork Wastewater Treatment Plant (Maintenance District 8A) Expansion Project Madera County Planning Department --Madera The project includes the expansion of a wastewater treatment plant to add capacity, collection lines, sprayfield area, and related infrastructure.	NOP	05/29/2002
2002041172	Maywood Redevelopment Project Merger Maywood Redevelopment Agency Maywood--Los Angeles The project involves the merger of three adopted Redevelopment Plans. Such a merger is recommended because of the administrative and financial advantages of having one Redevelopment Plan instead of three. Approval and adoption of the Merged Plan will not affect the boundaries of the Existing Project Areas; it will not affect the goals and objectives of the Existing Plans; nor will affect the approved lists of activities that the Agency may finance using tax increment revenues.	NOP	05/29/2002
2002041170	2002 Coachella Valley PM10 State Implementation Plan South Coast Air Quality Management District --Los Angeles, Orange, San Bernardino, Riverside The Coachella Valley was classified as a serious PM10 non-attainment area on February 8, 1993 by U.S. Environmental Protection Agency. The proposed project is the preparation of a 2002 Coachella Valley PM10 State Implementation Plan which outlines an enhanced PM10 reduction program to demonstrate attainment with the federal PM10 standards by the earliest practicable date and provide the necessary supporting documentation to formally request an extension of the PM10 attainment date.	Neg	05/29/2002
2002041173	Rancho Del Rey Library Chula Vista, City of Chula Vista--San Diego The proposed project consists of the submittal of a grant application to the State of California for the partial funding of the design and construction of a planned two-story, approximately 36,000 square foot City of Chula Vista public library branch, as well as the construction and operation of this facility. Vehicular access to the project site would be via driveways on Paseo Ranchero and East "H" Street. Approximately 190 on-site surface parking spaces are proposed. Two entrances into the library building are proposed, one on the north site of the building with a vehicular drop-off area and the other at the southeast corner of the building	Neg	05/29/2002

	adjacent to the northwest corner of East "H" Street and Paseo Ranchero, in close proximity to an existing Chula Vista Transit bus stop.		
2002042159	Humboldt Redwoods State Park Bull Creek Watershed Rehabilitation Project Parks and Recreation, Department of --Humboldt Full road recontouring of 35 miles of abandoned, unstable inner-gorge service and skid roads within the Bull Creek Watershed. The work includes excavation of embankment fill from roads and stabilization of excavated materials on cutbench to fully recontour to natural topography. Removal of fill material from 150 seasonally dry stream crossings associated with the roads. The majority of the crossings have no flow during the construction phase and are typically small headwater swales. Stream crossing removal includes excavation of road and landing fill from road/stream channel crossings and stabilization of excavated materials. Stream channel beds, banks, and adjacent slopes would be restored to their pre-crossing configuration. Longitudinal stream gradient would be reestablished throughout the crossing site.	Neg	05/29/2002
2002042160	Isleton Sewage Collection System Repair and Improvements Isleton, City of Isleton--Sacramento The existing clay pipe sewer collection system in the city of Isleton has undergone settlement and disrepair since its construction in 1923. Selected sections of the existing sewer system would be replaced with modern plastic piping to improve connections, flow and system capability.	Neg	05/30/2002
2002042161	Charles and Nell Sweeney Vineyard Forestry and Fire Protection, Department of --Napa This project consists of the issuance of a Timberland Conversion Permit exempting 23.7 acres of timberland from Forest Practice Act tree stocking (tree planting) requirements. The area will remain zoned Agriculture-Watershed following the removal of forest growth for development of a vineyard. The proposed vineyard is site III and IV timberland.	Neg	05/29/2002
1997081050	The Scholl Canyon Landfill Gas Collection System Los Angeles County Sanitation District GLENDALE--LOS ANGELES Increase the estimated site life from 2014-2019 and add requirements for medical waste incident notification and training for on-sie personnel to the SWFP.	NOD	
2002031134	Aurora 1-24 Division of Oil, Gas, and Geothermal Resources McFarland--Sacramento Request to drill an exploratory well on a site located within 2 acres.	NOD	
2002032030	Approval of Removal Action Workplan Toxic Substances Control, Department of Pittsburg--Contra Costa The project involves the implementation of activities specified in the Removal Action Workplan (RAW) to remove soil with concentrations of trichloroethylene (TCE) exceeding 1.7 mg/kg. The groundwater has also been impacted by volatile organic compounds and is currently under investigation to determine the extent of the contamination. However, groundwater remediation evaluation is not part of this project but will be addressed separately at a later time. The RAW was prepared in accordance with California Health and Safety Code Section 25356.	NOD	

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Tuesday, April 30, 2002</u>			
	The removal activities will include: 1. Excavation of approximately 30 cubic yards of soil impacted by trichloroethylene; 2. Collection of confirmation soil samples to verify if remedial goals have been achieved; 3. Transportation and disposal of TCE impacted soil to an appropriate permitted landfill; and 4. Backfilling the excavated areas with imported, clean soil and restoring to pre-excavation conditions.		
2002049044	Streambed Alteration Agreement R3-2001-1019/THP 1-00-225 MEN Forestry and Fire Protection, Department of --Mendocino The applicant proposes to 1) installation of a rocked ford on a Class II watercourse for existing seasonal road crossings, and 2) water drafting and sump-hole excavation for water drafting purposes. CDFG is executing a Lake and Streambed Alteration Agreement R3-2001-1019, pursuant to Section 1603 of the Fish and Game Code to the project applicant, John Ramaley, Mendocino Redwood Company.	NOD	
2002049045	Streambed Alteration Agreement R3-2001-1017/THP 1-01-279 MEN Forestry and Fire Protection, Department of --Mendocino The applicant proposes three involving 1) installation of two rocked fords on a Class II watercourse for existing seasonal road crossings, and 2) channel restoration and installation of rocked fords on a Class II and two Class III watercourses at a landing area along an existing seasonal road (to be abandoned). CDFG is executing a Lake and Streambed Alteration Agreement R3-2001-1017, pursuant to Section 1603 of the Fish and Game Code to the project applicant, John Ramaley, Mendocino Redwood Company.	NOD	
2002049046	Streambed Alteration Agreement R3-2001-0525/THP 1-01-206 MEN Forestry and Fire Protection, Department of --Mendocino The applicant proposes nine (9) activities involving: (1) water drafting from six separate locations on the Ten Mile River; (2) the installation of three culverts on Class II watercourses at map points 16, 34, and 42; all are tributaries to Smith Creek which is tributary to the South Fork of the Ten Mile River. The CDFG is executing a Lake and Streambed alteration agreement R3-2001-0525, pursuant to Section 1603 of the Fish and Game Code to the project applicant, Mark Hannon, Campbell Timberland Managements.	NOD	
2002049047	Streambed Alteration Agreement R3-2001-1014/THP 1-01-354 Forestry and Fire Protection, Department of --Mendocino The applicant proposes eleven (11) projects. The 11 projects include: an equipment crossing of a Class I watercourse, installation of a rock ford on Class II watercourse, abandonment of Class II and Class III watercourse crossings, and a Humboldt crossing removal on a Class I watercourse. 1) Crossing #1: The removal of perched fill on along a Class II watercourse at an existing seasonal road crossing (to be abandoned). 2) Crossing #2: The removal of perched fill along a Class II watercourse at an existing seasonal road crossing (to be abandoned). 3) Crossing #3: The removal of perched fill on along a Class II watercourse at an existing seasonal road crossing (to be abandoned). 4) Crossing #4: A temporary Class I watercourse crossing with heavy equipment. 5) Crossing	NOD

<u>Documents Received on Tuesday, April 30, 2002</u>			
	<p>#5: The removal and abandonment of an old Humboldt crossing on a Class I watercourse. 6) Crossing #6: The installation of a rock ford (change from rolling dip) on a Class II watercourse at an existing seasonal road crossing. 7) Area E: The removal of a culvert on an existing Class III watercourse just above a Class II watercourse along a seasonal road crossing section (to be abandoned). 8) Area F: The removal of perched fill on two Class II watercourses associated with a landing area along a seasonal road section (to be abandoned). 9) Area H: The realignment of Class II watercourse to the original channel location and abandonment of the road crossing. 10) Area J: The restoration of a Class II watercourse channel associated with an abandoned in-stream landing along a seasonal road section (to be abandoned); removal of in-stream logs utilized for crossing the watercourse and perched fill along channel. Potential additional project conditions listed below for field review evaluation. 11) Area K: The removal of perched fill along a Class II watercourse at an existing seasonal road crossing (to be abandoned). The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement R3-2001-1014, pursuant to Section 1603 of the Fish and Game Code to the project applicant, John Ramaley, Mendocino Redwoods Company.</p>		
2002059002	Eastern Service Area Small Pipeline Replacement Project, Harbison Canyon creekbed Crossing Padre Dam Municipal Water District --San Diego CDFG is intending to execute a Lake and Streambed Alteration Agreement pursuant to Section 1601 (SAA # R5-2002-0090) of the Fish and Game Code to the project applicant, Padre Dam Municipal Water District. The applicant proposes to extend a water line approximately 80 feet to connect with an existing water line located in Harbison Canyon Road.	NOD	
2002048440	Temporary Stockpile University of California, Irvine Irvine--Orange Temporary stockpile of approximately 20,000 cubic yards of earth on an approximately 1.5 acre site.	NOE	
2002048441	Stout Lab Addition Parks and Recreation, Department of --San Diego Project consists of addition of a detached one story wood frame/concrete block 55'x40' (1600 sq ft) structure placed on a new concrete slab with 24" footings in undisturbed desert area between existing lab and headquarters building, accessible by new concrete walkway, and accessible parking site. Disturbance to native desert area is limited to twenty-foot perimeter beyond footprint, with exception of extending utility lines (30" depth) to existing connections, and will require minimal clearing, grubbing and grading. Any removal plants will be replaced with in kind native vegetation. No known archaeological or historical resources are present.	NOE	
2002048442	Long Valley Trailhead Panel Parks and Recreation, Department of --Riverside Project consists of replacing an interpretive panel and moving the existing garbage cans that are framed by a fence to the right.	NOE
